ASSIGNMENT # 1

COMSATS UNIVERSITY ISLAMABAD

LAHORE CAMPUS

SUBMITTED BY: ASNA EJAZ

ROLL NO: FA24-BCS-022

SUBMITTED TO: Mr. USMAN AKRAM

DATE: 27TH SEPTEMBER 2026;

TASK: Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

Your page must include, at minimum:

- A header with your name, a short professional tagline, and a photo (a placeholder image is fine).
- An “About Me” section.
- An “Education” section listing your academic history in a semantic list or table.
- A “Skills” section.
- A “Contact” section with a real `<a href="mailto:...">` link and at least one social/portfolio link.
- Correct use of semantic HTML5 elements throughout — `<header>`, `<nav>`, `<main>`, `<section>`, `<article>`, `<footer>` as appropriate, not a page built entirely out of unstyled `<div>`s.
- Styling entirely in a separate `styles.css` file (external stylesheet, not inline `style=""` attributes) using the box model correctly — sensible margins, padding, and borders, not everything jammed against everything else.

CODE:

HTML:

```
<!doctype html>

<html lang="en">
  <head>
    <meta charset="UTF-8" />
    <meta name="viewport" content="width=device-width, initial-scale=1.0" />
    <link rel="stylesheet" href="style.css" />
    <title>Asna Ejaz - About Me</title>
  </head>

  <body>
    <header>
      

      <h1>ASNA EJAZ</h1>

      <p>BSCS Student | Learning, Building & Growing</p>
    </header>

    <nav>
      <a href="#about">About Me</a>
```

```

<a href="#education">Education</a>
<a href="#skills">Skills</a>
<a href="#projects">Projects</a>
<a href="#contact">Contact</a>
</nav>

OUTPUT:

ASNA EJAZ

BSCS Student | Learning, Building & Growing

[About Me](#) [Education](#) [Skills](#) [Projects](#) [Contact](#)

About Me

5th-semester BS Computer Science student at COMSATS University Islamabad with hands-on experience in Java, C++, and SQL gained through academic projects covering GUI application development, data structures & algorithms, and relational database design. Brings a strong analytical foundation and disciplined work ethic from a prior pre-medical academic track, reflecting adaptability and a consistent record of academic achievement. Seeking a software development/engineering internship to apply and build on these skills.

Education

- BS Computer Science — COMSATS University Islamabad
- A Levels (Pre-Medical) (3A*&As) — Beaconhouse School System
- O Levels (Pre-Medical) (9A*&As) — Beaconhouse School System

Skills

- Programming Languages: C++, Java, SQL, Python
- Core CS Concepts: OOP, DSA, DBMS, CN, DAA
- GUI Development: JavaFX / Java GUI
- Databases: SQL Server, Relational Database Design, Normalization, JDBC
- Currently Learning: Web Technologies, Machine Learning, Operating Systems

Projects

- Car Spare Parts Inventory, Sales & Purchase Management System | Java, SQL Server, JDBC
- E-Learning Platform | Java, JavaFX, OOP
- Campus Navigation System | Java, JavaFX, Data Structures & Algorithms
- Hospital Management System | C++, Programming Fundamentals, File Handling
